

COMMON COMMENSALS in VICNISS as of JUNE 2011

Aerococcus species	<i>Staphylococcus auricularis</i>
<i>Aerococcus urinae</i>	<i>Staphylococcus capitis ss capitis</i>
<i>Aerococcus viridans</i>	Staphylococcus capitis ss unspecified
<i>Bacillus cereus</i>	<i>Staphylococcus capitis ss urealyticus</i>
Bacillus species (not B. anthracis)	Staphylococcus coagulase negative
<i>Bacillus subtilis</i>	<i>Staphylococcus cohnii</i>
<i>Corynebacterium aquaticum</i>	<i>Staphylococcus epidermidis</i>
<i>Corynebacterium bovis</i>	<i>Staphylococcus gallinarum</i>
<i>Corynebacterium cystitidis</i>	<i>Staphylococcus haemolyticus</i>
<i>Corynebacterium glutamicum</i>	<i>Staphylococcus hominis</i>
Corynebacterium group G-2	<i>Staphylococcus lentus</i>
<i>Corynebacterium jeikeium</i>	<i>Staphylococcus lugdunensis</i>
<i>Corynebacterium kutscheri</i>	<i>Staphylococcus saccharolyticus</i>
<i>Corynebacterium matruchotii</i>	<i>Staphylococcus saprophyticus</i>
<i>Corynebacterium minutissimum</i>	<i>Staphylococcus schleiferi</i>
<i>Corynebacterium mycetoides</i>	<i>Staphylococcus sciuri</i>
<i>Corynebacterium pilosum</i>	<i>Staphylococcus simulans</i>
<i>Corynebacterium pseudodiphtheriticum</i>	<i>Staphylococcus species</i>
<i>Corynebacterium pseudotuberculosis</i>	<i>Staphylococcus warneri</i>
<i>Corynebacterium renale</i>	<i>Staphylococcus xylosus</i>
Corynebacterium species	<i>Streptococcus anginosus</i>
<i>Corynebacterium striatum</i>	<i>Streptococcus bovis</i>
<i>Corynebacterium ulcerans</i>	<i>Streptococcus mitis</i>
<i>Corynebacterium urealyticum</i>	<i>Streptococcus mutans</i>
<i>Corynebacterium xerosis</i>	<i>Streptococcus salivarius</i>
Diphtheroids	Streptococcus viridans species
Gram-positive cocci unspecified	
Micrococcus species	
<i>Propionibacterium acnes</i>	
<i>Propionibacterium avidum</i>	
<i>Propionibacterium granulosum</i>	
<i>Propionibacterium lymphophilum</i>	
<i>Propionibacterium propionicum</i>	
Propionibacterium species	
<i>Rhodococcus equi</i>	
Rhodococcus species
